Client Services

ivrrnet

A customized professional looking website, multiple modules that allow you to advertise and market your services. We offer continued support, after your initial setup, including assistance and training on any issues that come up. Personalized service, advice, and recommendations on what works best for your organization.

Customers have very high expectations for online purchasing and payments. Ivrrnet Central provides a familiar shopping cart environment that is seamless, attractive, modern and safe. Security and Compliance is one of the greatest risks to your organization and members personal information. We have you covered with Payment Card Industry (PCI) Compliance. Canadian Anti-Spam Legislation, Privacy of information and secure, in Canada, data storage.

Payment can not be taken online without a Merchant Account. Kixpay provides Ivrrnet Customers with this service as the “bank account provider” to accept online (ecommerce) credit card payments. This is part of the PCI compliance requirements. Without this type of bank account, you can not accept payments online.

The Ivrrnet Client Services Team strives to always provide a personalized experience to each customer including personalized training, timely response back to support tickets, and be available on a personal one on one review at any time. As a Canadian owned company, our team’s goal is to provide the best customer service possible to each client, earning and maintain the respect and trust of each client. We care!
